

SKILLED NURSING & REHABILITATION

MOORINGS PARK®
THE CHATEAU®

SKILLED NURSING AND REHABILITATION IN A BEAUTIFUL SETTING

Nestled within the 83-acre campus of Moorings Park lies The Chateau®, a Medicare-Certified Skilled Nursing facility providing short-term therapy, long-term care, and memory support services. The 5-star-rated Chateau at Moorings Park provides Simply the Best® healthcare and services available in the area. Residents at The Chateau® enjoy a full calendar of social, recreational, and spiritual activities, including music therapy and chaplaincy services.

SHORT-TERM REHABILITATION

The Chateau® provides short-term rehabilitation services, including physical, occupational, and speech therapy, following surgical procedures, such as hip and knee replacement, cardiac care, neurosurgery, and general surgery.

Residents who utilize The Chateau® for rehabilitation services are evaluated by a licensed therapist and will then receive a personal therapy plan based on the surgery received, individual capabilities, and personal goals.

Residents who need care or outpatient therapy upon discharge from The Chateau® can obtain additional services through the Moorings Park Home Health Agency or Moorings Park Communities' outpatient services.

OUTPATIENT REHAB

Our highly skilled, licensed, physical, speech, and occupational therapists establish treatment plans with our patients and their physicians customized to their specific needs.

We help patients achieve the highest level of independence possible across their daily activities within their home and community. We also specialize in vestibular therapy, which is designed to improve balance, reduce dizziness, and promote central nervous system compensation for inner ear deficits.

LONG-TERM CARE

Our long-term care program offers support for a variety of chronic illnesses or disabilities. Residents have the choice of spacious, tastefully furnished, private and semi-private rooms or their favorite pieces from home can be incorporated into the design to retain the continuity of familiar surroundings. By working closely with our residents' physicians and family members, we create individualized care plans that address long-term needs. Whether participating in an abundance of planned activities, receiving assistance with activities of daily living, or enjoying quiet time in bright, airy living spaces or lushly landscaped campus grounds, The Chateau® offers the utmost in long-term care, including daily activities such as assistance with hygiene, dressing and eating.

MEMORY SUPPORT

We care for, engage, and support our residents and their families through the later stages of Alzheimer's disease, memory loss and other related dementias the same way we would care for our own loved ones. Our expertise in current memory support practices and our commitment to continued research ensures an unsurpassed quality of care.

When a loved one experiences memory loss, the renowned Best Friends™ Approach at Moorings Park Communities helps our caregivers provide personalized, friendly services in a comfortable setting. Our memory support program addresses the needs of those with memory loss or who are in the later stages of Alzheimer's disease or some other form of dementia.

We engage residents in meaningful activity programs designed to stimulate cognitive function. Individualized care plans take many forms, including incorporating a resident's life story into his or her plan. Family-centered programs enhance interaction and participation, while outdoor gardens and courtyards foster a sense of independence in a secured setting.

CONTINUUM OF CARE

When you choose The Chateau®, you gain access to our world-class continuum of care, which includes our assisted living and memory support located at all of our communities, Moorings Park Home Health Agency, private duty care management, and our Outpatient Rehabilitation centers.

THE LIST OF AMENITIES IS LONG
